Meeting Project Needs

The following table can be used to help identify if new Duratec Elements is suitable for your project.

Product Suitability – Aluminium and Steel

Project , Environment and Conditions			Primer System		Duratec Elements ¹
Project Type	Environment	Conditions	Zincshield	E-Prime	
Monumental	Exterior	Mild, Severe or Tropical			
Prestigious Commercial	Exterior	Severe or Tropical	○	○*	●
Prestigious Commercial	Exterior	Mild	○		●
Commercial	Exterior	Severe or Tropical	○	○*	●
Commercial	Exterior	Mild	○		●
Residential	Exterior	Severe or Tropical	○	○*	●
Residential	Exterior	Mild	○		●
Non Habitable	Exterior	Severe or Tropical	○	○*	●
Non Habitable	Exterior	Mild	○		●
All Projects	Interior	Moderate Interior (High)	○	○*	●
All Projects	Interior	Moderate Interior (Medium)	○	*	●
All Projects	Interior	General Interior	○		●

● Steel Shield and Alumi Shield Warranty available.

○ Primer required for Steel Shield Warranties.

* E-Prime base coat is mandatory for Alumi Shield warranties on perforated and expanded aluminium where indicated.

1. Duratec Elements are only suitable for coastal environments >10m from the high tide and are NOT suitable in strongly acidic environments so PH must be >5.

- Non-Habitable projects are those that are not dwelling types. Examples can be furniture, bus shelters, statues, signage etc.
- Residential properties up to 3 levels (BCA Class 1 & 10) are typically easy to maintain, given their height and access.
- High-rise projects are less sheltered from neighbouring buildings, raising their exposure and reducing the ease of maintenance.
- All projects can include monumental, prestigious commercial, commercial and residential of all types (levels).
- Alumi Shield Warranties are only available on: architectural aluminium applications, including perforated aluminium and expanded aluminium.
- Steel Shield Warranties are only available on: Mild Steel, Bright/Semi Bright Steel, Black Steel and Blue Steel.
- Please refer to a Dulux DuSpec Specification for exact specification – including preparation and blasting requirements.

For more information on identifying the right product for your project call 13 24 99 or visit duluxpowders.com.au

Warranted Performance

All Dulux premium powder coat products are backed by product specific warranties. Below is an overview of the warranties available from Dulux for Duratec Elements:

	Warranty	Duratec Elements
Alumi Shield Warranty	Aluminium Durability	25 Years
	Aluminium Colour	20 Years
Steel Shield Warranty	Steel Corrosion	Up to 10 Years
	Steel Colour	20 Years

Warranties are made up of a colour warranty (for colour fade and chalking), durability warranty (film integrity for aluminium only), and corrosion warranty (for steel only). They are only valid when applied by a Dulux Accredited Powder Coater to the warranty specification on recommended project types and conditions.

For more information visit duluxpowders.com.au/warranties

Dulux Accredited Powder Coaters

Only Dulux Accredited Powder Coaters are able to issue our Dulux Alumi Shield and Steel Shield warranties after demonstrating their capability to meet stringent quality conditions and international standards.

For more information visit duluxpowders.com.au/accredited

Custom Colour

This colour card and our Colour Selectors offer a range of products and colours that are readily available. If you cannot find the colour you require in a particular product, Dulux offer a Custom colour service. Call 13 24 99 or visit duluxpowders.com.au

Advice Line

Our dedicated consultants can help simplify the specification process, saving you time and money by providing the right coating advice for your project. Call 13 24 99 or visit duluxpowders.com.au
